

## Magnetic Filter - Particle separator

| 3510 | Code        | Package | € |
|------|-------------|---------|---|
|      | 35100100100 | 1/6     |   |

The package includes:

- 1 Neodymium Magnet 9000+ G
- 2 Elastic connector (2 pcs.)
- 3 Filter anti-blocking system
- 4 Hydrocyclone system
- 5 Body
- 6 Discharge switch CW614N
- 7 Cap CW614N
- 8 Elastic connector (2 pcs.)
- 9 T-piece with a capacity to rotate at 360°
- 10 Ball Switch with Rotary ARS fitting. 1"/Female 3/4", ISO:228, CW617N
- 11 Add L70 M/F, CW617N

Possibility of rotation  
**360°**

- ▶ Maximum flow: 50 l/min (in boilers up to 60KW)
- ▶ Operating temperature: 1000C
- ▶ Maximum operating pressure: 3 bar
- ▶ Installation: The body should always be vertical.
